

5/11/2023 Email

Hello,

You are receiving this email to let you know that your student received a grade of F for the course(s) noted below in the Grade Report (Semester) for the **Fall 2022 semester (semester 2 email notice will be emailed June 9th)** .

This means the student failed the course (under 60%) and DID NOT earn credit for the course. It is likely that this credit is required for graduation and needs to be recovered via credit recovery (check with your student's counselor to confirm).

Many students utilized credit recovery options via the ALC and in the high school this year to recover credits. However, we wanted to inform you that summer school registration is now available (see the registration link below). **We want to encourage you to sign up for summer school for any courses that still need to be recovered.**

Here are the ways they can recover that credit this summer:

SUMMER SCHOOL
WHERE : Hastings High School START DATE: Tuesday June 13th END DATE: Friday June 30th* DAYS/WEEK: Monday - Friday* TIME: 8:00 a.m. - noon CREDITS: Students work independently IN PERSON and are supervised by a teacher in class. REGISTER: https://forms.gle/nvadtaQhmRneJ97X9
<i>* Duration of the coursework needed to earn the credit will be dependent on the student's final percentage from their failed course. Students that ended between 40-59% will only need to complete select units from a credit recovery course, while students below 40% will need to complete the whole credit recovery course. Students will attend as long as there is coursework to make up.</i>
Students who do not complete the course prior to August will have the course placed into their following year schedule at the expense of an elective.
